CORE STACK

Node.js, TypeScript, Node.js,
Next.js, Vue.js, AWS, Docker,
PostgreSQL, MongoDB, AI/LLMs,
CI/CD, Microservices, System
Design

AWS EXPERTISE

EC2, ECS, Fargate, Lambda, S3,
RDS, DynamoDB, DocumentDB,
IAM, Cognito, ACM, Secrets
Manager, Organizations, & more

KEY METRICS

20+ years experience
100,000+ applicants supported
Thousands of applications daily
99.9% uptime achieved
50%+ AWS cost reduction
Teams of 10+ engineers managed

EXECUTIVE SUMMARY

Principal Software Architect with 20+ years of experience delivering enterprise software, cloud-native platforms, AI-powered applications, and large-scale business systems. Proven success leading engineering teams, architecting highly available platforms, implementing CI/CD practices, and reducing cloud infrastructure costs.

FLAGSHIP PROJECTS

The Big POS — Enterprise mortgage platform serving thousands of loan officers and hundreds of thousands of applicants and co-borrowers. Processed thousands of applications daily with AI-assisted underwriting analysis, automated testing, CI/CD pipelines, and 99.9% uptime. Led a team of 12 engineers across the stack. Automated client onboarding.

CHARM — Mission-critical Utah DHHS healthcare platform with weekly releases, structured testing, and strict compliance control requiring security clearance

MortgageWare — Mortgage platform integrating CRMs, LOSs, employment, income, and tax verification providers while maintaining 99.9% uptime and reducing AWS costs by more than 50%. Managed SOC2 audit, AWS infrastructure and led the development team of 6 engineers.

Autospeed — Designed and delivered a complete automotive performance ecosystem consisting of a custom e-commerce platform, web-based administration portal, mobile management application, and ECU tuning software capable of flashing vehicle ECUs through the OBD II interface.

PROFESSIONAL EXPERIENCE

Principal Software Architect — Elemental App Studio [Freelance] (2010–Present)

- Architected and delivered hundreds of custom web, mobile, SaaS, and cloud-native applications.
- Led end-to-end solution delivery from requirements through deployment and support.
- Designed and delivered the Autospeed platform ecosystem.
- Provided architecture leadership and technical mentorship.

Lead Software Architect — WebMax (2015–2018)

- Designed and delivered MortgageWare and assisted with sales & support.

Principal Software Architect — Mortgage Automation Technologies (2018–2024)

- Architected The Big POS platform supporting thousands of mortgage applications per day.
- Implemented AI-assisted underwriting analysis workflows.
- Established CI/CD pipelines with automated testing, staging, UAT, and daily production deployments.
- Managed teams of up to 10 engineers and maintained 99.9% uptime objectives.

Senior Software Engineer (Contract) — Multidimensional Software Creations (2024–2026)

- Lead engineer supporting CHARM for Utah DHHS.
- Delivered weekly releases through structured testing and deployment processes.
- Worked within strict healthcare compliance requirements.
